Failure to Agree.
NEAR DEADLOCK ON ARMY BILL

House and Senate Conference Still Far Apart.

Roosevelt's Division and Army Posts Big Issue.

Age Limits for Draft Considered a Minor Issue.

WASHINGTON, May 9.—The House and Senate conference on the army bill today was far from successful. The two bodies were unable to agree on any of the major issues, and the bill is expected to be returned to the Senate for further consideration.

KAISER.

For his law of emblems.

Handed with Kaiser and his friends.

Interned vessels.

Bought for nation.

WASHINGTON, May 9.—The House today passed a bill authorizing the president to intern vessels of enemy nations.

ELECTRIC WORKERS NEEDED AT HOME.

(BY A. P. NIGHT WIRE.)
NEW YORK, May 9.—Problems confronting the electric power companies of the United States which must be overcome in order to give full aid to the government in the coordination of national industrial preparedness were outlined by Herbert A. Warner, president of the National Electric Light Association, at the fortieth annual convention of the organization here today.
"In order to maintain our service with undiminished effectiveness," he said, "it is, of course, necessary that the public utilities should retain at least the greater part of their forces of skilled men. Prompt measures must be taken to offset the effect of enlistment and the application of the selective draft in decimating our organizations."

UNWRITTEN LAW FREES EDUCATOR.

PROF. VAWTER ACQUITTED OF VIRGINIA'S MURDER.
Slayer of Wealthy Young Society Man and Sportsman. Given Out Statement in Which He Outlines Prosecution and Press for "Injustice" Done His Wife.
(BY A. P. NIGHT WIRE.)
CHRISTIANBURG, (Va.) May 9.—Charles E. Vawter, former professor of physics in Virginia Polytechnic Institute, was declared not guilty tonight of the murder of Stockton Heth, Jr., a wealthy young society man and sportsman, whom he shot to death in the Vawter home early on the morning of March 13. The jury was out two and a half hours, but, according to one jurymen, only one ballot was taken. Vawter's defense had been based on the unwritten law and self-defense.
After the acquittal Vawter gave out a statement criticizing the prosecution and the press for "the injustice done Mrs. Vawter," who testified during the trial that she had been intimate with Heth, a frequent visitor at the Vawter home.
"I greatly regret the whole sad affair and the accusations against me," said the statement. "The injustice done Mrs. Vawter by the prosecution and press is the greatest blot upon the whole case. While I am blameless as to the murder of Heth, I realize that I have been guilty of weakness when I should have been strong. The face, but with God's help I shall endeavor to build somewhere a happy home for my children and to rest."

WASTE OF MEATS WOULD FEED MANY.

ONE OUNCE DAILY IN EACH HOME MEANS TONS.
Millions of Hogs and Cattle Slaughtered by the Country. Thrown Away and All Cows Should be Utilized to Cut Nation's Food Bills.
(SPECIAL CORRESPONDENCE.)
WASHINGTON, (D. C.) May 9.—An ounce of edible meat—lean meat, fat and lean, suet or fat, trimmed from neck, chops or roasts—seems hardly worth mentioning to most people. Many households take just this view of the matter—do not trouble to put such an insignificant scrap into the box or soup pot—do not bother to save for cooking or a tiny bit of fat or suet.
Yet if every one of our 20,000,000 American families on the average wastes each day only one ounce of edible meat or fat it means a daily loss of 1,000,000 pounds of animal food—10,000,000 pounds of valuable animal food a year.
At average dressed weights it would be the same as losing 1,500,000 steers or over 2,000,000 hogs—bones and all—to provide this weight of meat or fat for each garbage pail. If the bones and fat were saved, the waste would be increased to 1,150,000,000 pounds of meat or fat. The waste of meat or fat is a daily loss of 1,000,000 pounds of animal food—10,000,000 pounds of valuable animal food a year.

LOYALTY URGED ON CALIFORNIANS.

(BY A. P. NIGHT WIRE.)
SACRAMENTO, May 9.—An appeal to residents of California to be loyal to the government, the President and officials charged with conducting the war was made public today by the State Council of Defense. A. H. Nattager, vice-president of the council, in making the appeal, urged persons who do not agree with the stand taken by the United States to keep their opinions to themselves, an unpatriotic or un-American statement might cause violence or riots.
"People do not realize the seriousness of the situation," says Nattager. "Words and deeds which in times of peace would be regarded as unimportant are now regarded as unimportant. Words and deeds which in times of peace would be regarded as unimportant are now regarded as unimportant. Words and deeds which in times of peace would be regarded as unimportant are now regarded as unimportant."

LABOR LOST.

Millions of tons of feed and hay, the grass from vast pastures and the labor of armies of cattlemen and butchers would be scrapped by the war. But every household doesn't waste an ounce of meat or fat every day. A very well-made fat one out of 100 families. Make it an ounce every other day, or one a month. Such waste still would be unendurable, when meat is scarce and when fat is so vital food importance to many nations.
Waste of meat or fat is incalculable. Every bit of lean meat can be used in soups, stews or in combination with cereals; every spoonful of fat can be employed in cooking; every bit of drippings and gravy can be saved so easily and used to add flavor and nourishment to other dishes.
The United States Department of Agriculture, Washington, D. C., or your State Agricultural College will declare to you how to make appetizing and nutritious dishes and how to use leftover fat in cooking.

WHY RAILWAYS NEED THE COIN.

Advance in Rates Asked will Fall Millions Short.
High Cost of Material and Labor Main Factors.
Interstate Commerce Hears Case of Middle West.

(BY A. P. NIGHT WIRE.)
WASHINGTON, May 9.—The railroads of the Middle West represented to the Interstate Commerce Commission today that the requested 15 per cent. increase in freight rates would fall by at least \$20,000,000 to meet advanced operating costs already effective and anticipated.
Forty-six western roads or systems, operating 110,000 miles of lines, furnished the information upon which this figure was computed by L. E. Wetting, a statistician, the chief witness to testify in the case. Mr. Wetting gave evidence to show that the general 15 per cent. advance would produce \$150,000,000. Higher cost of labor and other items of operation to which the roads received a net return of \$120,000,000, he said, while wage adjustments and further increases in the cost of material would add another \$20,000,000 when existing contracts expire.

AMERICA TO PLAY LEADING WAR ROLE.

CONFERENCE IN PARIS REACHES SATISFACTORY RESULTS.
French General Secretary of Foreign Affairs Admits that the United States is Expected to Have Great Influence in All Phases of the Conflict.
(BY A. P. NIGHT WIRE.)
PARIS, May 9, 12:30 p.m.—The results obtained by the recent war council held in Paris were highly satisfactory, according to Jules Cambon, general secretary to the French Foreign Affairs. This conference was attended by Rear-Admiral William S. Sims, chief of the United States Navy, and more it is becoming evident that the future conduct of the war will be determined by the United States. The moral, material, military and naval forces of which constitute factors of the very highest importance, he said, are now being mobilized. "Owing to conditions in Russia, activity on the eastern front has been retarded. This and other factors looking toward the indictment of twelve labor officials probably will be presented to the grand jury within a week."
Details of the conference and the identity of the "squalor" were suppressed. State's Attorney Hovey said that the results of the investigation into dynamiting of buildings in the war between moving-picture operators and unions, Locals 119 and 117, became public prematurely.
"It is an illustration of what the press of free and democratic nations against autocracy," said Mr. Hovey. "The next meeting of the inter-allied parliament should be held at Petrograd. This would be significant because it would show the center of democratic action would be the seat of a parliament representing the liberal nations. The United States is destined later to play an important role in international affairs. In time the existence of the inter-allied parliament may become the means of preventing international conflicts and may constitute a permanent union of free nations."

WESTERN PACIFIC MAY BUY ELECTRIC.

(BY A. P. NIGHT WIRE.)
SAN FRANCISCO, May 9.—The Western Pacific Railway Company stands ready to purchase the Northern California Electric Company, operating between Sacramento, Marysville, Chico, Oroville and other Northern California cities, it was learned here today when Charles M. Levy, president, and John P. Bowie, vice president, of the company, appeared before the Reorganization Committee of the Northern Electric and Power Company, a subsidiary of the State Railroad Commission, "enter into negotiations for purchase."
The committee of the Reorganization Committee was appointed to investigate and consider the proposition of the Western Pacific Railway Company to purchase the Northern California Electric Company, a subsidiary of the State Railroad Commission, "enter into negotiations for purchase."

WOULD FEED CATTLE IN YOSEMITE PARK.

(BY A. P. NIGHT WIRE.)
STOCKTON, May 9.—The government will be asked to throw open the Yosemite National Park to stockmen that cattle, which have been grazing on the park, may be fed throughout the summer. Assemblyman Dan Williams and Charles E. Ellingwood, Sonoma, arrived in Stockton on their way to Sacramento to interest Gov. Stephens in getting the United States Department of the Interior to grant 72,000 acres of the Yosemite National Park to grazing for this season only. Williams said that the county council of defense.

ONLY NINE OF L.W.W. RIOTERS STILL JAILED.

(BY A. P. NIGHT WIRE.)
SEATTLE (Wash.) May 9.—Five more members of the so-called speech expedition of the Industrial Workers of the World were taken to Seattle to Everett, November 5 last and became involved in a fight with deputy sheriffs in which seven were killed and one was injured. The men were taken to the county jail today at the request of Prosecuting Attorney Black of Snohomish county. These five are the only ones left in the county jail. The men were taken to the county jail today at the request of Prosecuting Attorney Black of Snohomish county. These five are the only ones left in the county jail.

WOMAN WHO KILLED ARMY MAN IS FREED.

(BY A. P. NIGHT WIRE.)
MACON (Ga.) May 9.—Mrs. Mattie May Adams of Atlanta was acquitted by a jury in Superior Court here tonight of the murder of Capt. E. J. Sprattling of the Georgia National Guard, whom she shot to death at the Georgia mobilization camp last August.
At her trial, which began today, Mrs. Adams asserted that Capt. Sprattling, a physician in private life, had taken advantage of her; that she had told her husband, and that she finally decided to kill Sprattling. She declared her husband had told her to do this.
THAW WINS POINT.
New York Request for Him Refused by Pennsylvania.
(BY A. P. NIGHT WIRE.)
HARRISBURG (Pa.) May 9.—Gov. Brucebaugh today refused to extradite Harry C. Thaw to New York City, where he is wanted on an indictment for assassinating a Kansas City schoolboy. Thaw is still in a Philadelphia hospital, where he is taken after an attempt at suicide.
The governor took the stand that the Pennsylvania courts had held Thaw to be insane, and that he therefore was unable to make his defense against such a surrender. It is understood that the New York authorities will appeal.

BURSTING BOILER KILLS.

(BY A. P. NIGHT WIRE.)
TACOMA (Wash.) May 9.—The boiler of an engine on a Northern Pacific train blew up tonight at Kennedy and instantly killed Frank Thompson, engineer, and injured two firemen, badly injured, are in the Northern Pacific Hospital here.

FLOUR TAKES JUMP AND MAY GO HIGHER.

(BY A. P. NIGHT WIRE.)
PORTLAND (Or.) May 9.—Flour today took a sheer jump of \$1.50 a barrel to \$13.75 for patents, the steepest single day's rise yet. Further heavy advances in the near future were being predicted by the dealers.
First Place.
AMERICA TO PLAY LEADING WAR ROLE.
CONFERENCE IN PARIS REACHES SATISFACTORY RESULTS.

CHICAGO MOVIE BOMBER SQUEALS.

Dynamiter Confesses Many Paying Operations.
Proprietors of Theaters are Bled for Thousands.
Business Men Called Cowards for Permitting It.
(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)
CHICAGO BUREAU OF THE TIMES, May 9.—A dynamiter said to belong to Local 157 of the moving-picture operators today made a full confession of his operations and those of a band of labor unionists who are said to have extorted hundreds of thousands of dollars from movie theater owners and to have dynamited buildings of obstinate business men who attempted to escape paying for "protection."
The confession is said to cover depredations committed not only on moving-picture theaters, but also on several apartment buildings where labor difficulties existed. The statement was made to Assistant State's Attorney Nicholas Michalek, then Mr. Michalek completed taking the dynamiter's statement he announced that his case against the alleged band of labor extortionists was practically finished. This and other evidence looking toward the indictment of twelve labor officials probably will be presented to the grand jury within a week.

SHIPPING FOR ALLIES RELEASED BY SWEDEN.

(BY ATLANTIC CABLE AND A. P.)
STOCKHOLM, May 9 (via London, 1:50 p.m.)—Approximately 9,000 tons of Allied shipping, which has been tied up in the Gulf of Bothnia since the beginning of the war, will be released as the result of an agreement between Great Britain and Sweden and which was perfected today. Sweden secured as its part of the release of the ships, laden with foodstuffs and other supplies which have been detained in British harbors.

STATE FRUIT CROP SHOWS NO DECREASE.

(BY A. P. NIGHT WIRE.)
SACRAMENTO (Cal.) May 9.—Although there will be a shortage in California's fruit crop this year, according to a report issued today by the State Horticultural Commission, G. H. Crocker, its president, the new acreage coming into bearing will overcome the loss so far as output is concerned. The report is based on figures from four fruit-producing counties of the state.
Applicants suffered most from frost, though almonds also were badly set, it was indicated. Definite figures on the report of the commission, the crops ranging from only 10 or 15 per cent. in some counties to 100 per cent. elsewhere. Fruit indicate the harvesting of a 40 per cent. crop, harvesting 60 per cent. of almonds, 80 per cent. of peaches, 100 per cent. of apples, according to the report.

REVOLT IN BOLIVIA OFFICIALLY DENIED.

(BY ATLANTIC CABLE AND A. P.)
LA PAZ (Bolivia) May 9.—The secretary of State made denial today of the report of a revolution in Bolivia. He said the situation in the republic was tranquil. A dispatch from Lima last night reported that revolutionary movements had broken out in the districts of Oruro and Potosi and that troops were being sent to re-establish order.

RUSSIAN POLITICS BECOMING QUIETER.

(BY A. P. NIGHT WIRE.)
WASHINGTON, May 9.—Official reports from Petrograd indicate great improvement in the political situation. The Russian government has received today said street disturbances ended in a great demonstration for the ministry, and one dated May 7 reported quiet everywhere.

SCORES OF MEXICANS KILLED IN WRECK.

(BY A. P. NIGHT WIRE.)
LAREDO (Tex.) May 9.—The first train from Mexico since last Saturday today brought news of a wreck near Queretaro. Sunday, when 140 persons were killed and several scores injured, due to a derailment. The passenger coach was said that it was reliably reported that thirty soldiers were killed and several injured when bandits blew up a train May 4 near Queretaro.

HINDENBURG AGAIN PREDICTS VICTORY.

(BY ATLANTIC CABLE AND A. P.)
AMSTERDAM, May 9 (via London, 9:10 a.m.)—Field Marshal von Hindenburg is again predicting victory, according to the Berlin Tagblatt. The paper quotes the field marshal as saying in reply to an address from the Saxon Second Chamber:
"The soldier spirit, which is always cultivated by the highest war lord, has again proven its strength. If the home army also holds on then we are certain of victory."

MISSISSIPPI URGED TO CONSERVE STAPLES.

(BY A. P. NIGHT WIRE.)
JACKSON (Miss.) May 9.—Gov. Bilbo today issued a proclamation urging the people of Mississippi to observe one meatless and flourless day each week during the war.
To EXTEND RESERVE SYSTEM.
BRIAR CLIFF MANOR (N. Y.) May 9.—After the reading today of a telegram from Secretary McAdoo, the executive council of the American Bankers' Association appointed a committee of twenty-five members to go to Washington with government officials plans for bringing State banks into the Federal reserve system.

MILLIONAIRE REGAINS ABDUCTED YOUNG SON.

(BY A. P. DAY WIRE.)
SAN FRANCISCO, May 9.—Byrd Wilson Wenman, Sr., millionaire of Stanford, Cal., was restored the custody of his 7-year-old son, Byrd Wilson Wenman Jr., by the State District Court of Appeals here today. Since 1914, when Wenman was given custody of the child after securing a divorce from his wife, Louise, the latter sought through various court actions to secure guardianship papers for her son, whom, it is asserted, is heir to a fortune.
Mrs. Wenman married S. Fritz Nave, a San Francisco stockbroker, in 1915, and shortly after that, she alleged, she returned to New York and abducted the boy. Wenman followed her to San Francisco and obtained a writ of habeas corpus in the District Court of Appeals here. Mrs. Nave had been refused guardianship papers in the Superior courts here.

SINN FEINER LEADS FOR COMMONS SEAT.

(BY ATLANTIC CABLE AND A. P.)
LONDON (Ireland) May 9, 2:45 p.m.—An election to fill the vacancy in the House of Commons for the southern division of Longford county was held today. The candidates were Patrick McGillicuddy, Sinn Fein, and Joseph McGillicuddy, a Sinn Fein. Police armed with rifles patrolled the district. Early reports indicated that McGillicuddy was polling the heaviest vote. The Sinn Fein were mourning on the day of the election, the day of the Easter Sunday revolution.

SHIPPING FOR ALLIES RELEASED BY SWEDEN.

(BY ATLANTIC CABLE AND A. P.)
STOCKHOLM, May 9 (via London, 1:50 p.m.)—Approximately 9,000 tons of Allied shipping, which has been tied up in the Gulf of Bothnia since the beginning of the war, will be released as the result of an agreement between Great Britain and Sweden and which was perfected today. Sweden secured as its part of the release of the ships, laden with foodstuffs and other supplies which have been detained in British harbors.

STATE FRUIT CROP SHOWS NO DECREASE.

(BY A. P. NIGHT WIRE.)
SACRAMENTO (Cal.) May 9.—Although there will be a shortage in California's fruit crop this year, according to a report issued today by the State Horticultural Commission, G. H. Crocker, its president, the new acreage coming into bearing will overcome the loss so far as output is concerned. The report is based on figures from four fruit-producing counties of the state.
Applicants suffered most from frost, though almonds also were badly set, it was indicated. Definite figures on the report of the commission, the crops ranging from only 10 or 15 per cent. in some counties to 100 per cent. elsewhere. Fruit indicate the harvesting of a 40 per cent. crop, harvesting 60 per cent. of almonds, 80 per cent. of peaches, 100 per cent. of apples, according to the report.

RUSSIAN SHIP SUNK.

(BY ATLANTIC CABLE AND A. P.)
LONDON, May 9.—The Russian ship Hesperus was sunk by the German submarine U-101 in the North Atlantic. The ship was carrying a cargo of foodstuffs and other supplies. The crew was rescued by a British ship. The ship was carrying a cargo of foodstuffs and other supplies.

SCORES OF MEXICANS KILLED IN WRECK.

(BY A. P. NIGHT WIRE.)
LAREDO (Tex.) May 9.—The first train from Mexico since last Saturday today brought news of a wreck near Queretaro. Sunday, when 140 persons were killed and several scores injured, due to a derailment. The passenger coach was said that it was reliably reported that thirty soldiers were killed and several injured when bandits blew up a train May 4 near Queretaro.

HINDENBURG AGAIN PREDICTS VICTORY.

(BY ATLANTIC CABLE AND A. P.)
AMSTERDAM, May 9 (via London, 9:10 a.m.)—Field Marshal von Hindenburg is again predicting victory, according to the Berlin Tagblatt. The paper quotes the field marshal as saying in reply to an address from the Saxon Second Chamber:
"The soldier spirit, which is always cultivated by the highest war lord, has again proven its strength. If the home army also holds on then we are certain of victory."

MISSISSIPPI URGED TO CONSERVE STAPLES.

NO SMOKES FOR SOLDIER BOYS?

Protest Against Red Cross Appeal for Tobacco.

Particular Rancor Over Supplying Cigarettes.

No Explicit Orders from the National Headquarters.

When the local chapter of the American Red Cross solicited cigars, cigarettes, tobacco, pipes and other articles dear to the heart of a smoker, it stirred up a nest of disapproval. According to Secretary Eaton, the request for these things was made at the suggestion of army men who had seen service not only in the Spanish-American War, but more recently on the border. When some of the latter appeared and declared that the boys at the front received the greatest solace and comfort from their tobacco in various forms, it was deemed a worthy plan to solicit contributions of such a nature.

AGAINST CIGARETTES. Contributions were forthcoming, but Mrs. Joseph Banning, who has been in charge of collection of these things, as well as Secretary Eaton, has received some violent protests against the plan. One individual wrote and declared that the Red Cross is primarily conducted for the welfare and uplift of humanity. "The use of cigarettes or tobacco in any form is demoralizing and makes degenerates of our men," states this person.

A woman writes that she has given her son to the cause, the boy having enlisted. She does not want him to be tempted to the use of tobacco in any form, and therefore makes a strong protest against allowing it to be collected or sent to the soldiers.

NO RULE ISSUED. Still another woman insists that tobacco leads to other vices, and should never be allowed to reach the troops, much less be asked for by the Red Cross organization.

This sudden attack on what was considered a worthy attempt to gratify the wishes and desires of the great majority of men who have enlisted, has taken the local Red Cross authorities by surprise.

"Other Red Cross organizations are securing such donations and forwarding them to the soldier camps," said Secretary Eaton. "We have at this time no explicit orders from national sources on the matter. Unless the opinion of the great majority is against the handling of tobacco, we probably will continue doing it."

Mrs. Banning reported quite a good contribution of smoker's articles and materials, particularly of cigarettes.

NEW PUBLIC MARKET.

Ground Floor of Stimson Building to be Remodeled for Meeting Place of Producer and Consumer in Transaction of Business.

The ground floor of the Stimson Building, Third and Spring streets, is to be converted into a modern, sanitary public market. Tenants on this floor have been notified to vacate immediately, in order that the changes may be made, and stalls with complete modern equipment will be provided.

Special opportunities will be given for the merchant with small capital, and the actual producer, to establish themselves in this market, and a general policy of good service to the public will be demanded.

The new market will be based on those of similar character now in operation in Seattle, and which, it is said, have met with the most favorable results. W. H. Stimson, owner of the Stimson Building, visited Seattle to study these markets, and he has secured the services of C. A. Gray, a market expert, who will organize and instruct the merchants of the new market. The place will be known as the Sanitary Public Market, and it will open about the first of next month.

FRANCE TO REVIVE MEATLESS-DAY RULE.

(BY ATLANTIC CABLE AND A. P.) PARIS, May 9. 9:50 a.m.—Prohibition of the sale of meat after 1 p.m. has had little effect in reducing consumption, the saving realized having been less than 10 per cent., and accordingly the original plan for meatless days has been revived by Maurice Violette, minister of agriculture. After May 15 the sale of meat, poultry or game in any form will not be permitted on Thursdays or Fridays, and the slaughter-houses will be closed from 11 a.m. Tuesdays to 6 a.m. Fridays.

HOME BIDDER MAY BUILD HARBOR BARRACKS.

BIDS on the construction of twenty-five buildings to compose the barracks at Port MacArthur at the harbor were opened yesterday. The work will involve the expenditure of about \$400,000. Several days will be required to tabulate the bids before recommendations can be made, but it is probable John R. Dawson of Los Angeles will be awarded the greater part of the work and that his bid for hollow tile construction will be accepted.

There were thirty-five bidders on all classes of the work, of which eighteen bid on the general construction work only, nine on plumbing and six on the electrical work. It was nearly noon before Maj. Harry W. Newton read all the bids and nearly forty interested contractors were on hand to tabulate them.

The largest job will be the four barracks, for which the lowest bid was \$22,621 each. Other buildings include two field officers' quarters, four sets of double officers' quarters, one four-set bachelor officers' quarters, hospital stewards' quarters, administration building, hospital, post exchange, and gymnasium, guardhouse and fire station, bakery, storeroom, stable, shop buildings, warehouse and artillery engineers' storeroom.

The buildings will be grouped on the forty-acre tract at Twenty-sixth street and Pacific avenue, San Pedro, which will be beautifully parked. The officers' quarters will be erected along the south side of the tract with the barracks grouped around them, forming a square at the north side. Between the barracks and the officers' quarters will be the parade grounds. The shops and other buildings will be located along the northern boundary with the hospital on the west side of Pacific avenue, the main boulevard to Point Fermin.

Just below the bluff on the east side will be located a wharf and a storehouse for the care of the equipment for mining the harbor. The barracks will be located several blocks from the wharf, on a higher ground and will be conveniently located for transportation property. The San Pedro local Pacific Electric line to Point Fermin runs through the tract.

TRIES TO BEAT AN AGED MAN.

Attack in Made While He Slept in His Unlighted Room.

Ludwig Larsen, 72 years of age, after a day of toil, was too fatigued last night to light the gas in his room. He sat in the dark on the edge of his bed at No. 214 East Fifth street, took his pipe out of his pocket and reached for the tobacco on a chair.

An unseen hand reached through the dark and grabbed Larsen's hand. A moment later somebody leaped out from behind a door in the room and two hands closed on the aged man's throat. The intruder threw the old man on the bed and tried to beat him with a slingshot. Each time the blow was checked by the old man's hand. Larsen wrenched the weapon from the burglar's hand and the intruder fled down the stairs and disappeared in the crowds. The slingshot and the hat are being held by Detectives Beaumont and Roberts as evidence.

FOUNDLING STARTS LIFE A MYSTERY.

RICHLY-DRESSED BABY LEFT ON STEPS OF ASYLUM.

Pitiful Note Signed by "Forlorn Mother" Followed Within Half an Hour by Phone Message from Man Inquiring for His Safety. Woman Urged to Join Infant.

A foundling mystery out of the ordinary run of such things developed on the steps of the Florence Crittenton Home at Avenue 33 and Graham street last evening.

Miss Clara DuBois, the matron, was called to the door about 8 o'clock. On the steps she found a six-week-old baby girl dressed in the finest of lace and muslin garments and wrapped in an expensive shawl of white wool. On its dress was pinned a note which read:

"Dearest matron: I am leaving my dear baby in your care, as I am unable to support her. As soon as I can I shall come and get her, for I want her as only a mother can. Please don't let anyone adopt her—please, please—for I want her. I'll try to see her in about two weeks or so, if I am able. The baby's name is Evelyn. Hoping you will take good care of my baby."

(Signed)

"A FORLORN MOTHER."

Half an hour later Miss DuBois was called to the telephone. A man's voice, speaking from a pay station, asked if a baby had been found on the steps and was being cared for. On learning that it had he shut off inquiries as to his identity by hastily hanging up.

Mrs. Mary Stoddard, active head of the home, is very anxious that the mother of the infant shall feel free to come at once to the home and stay there with her baby until such time as she feels able to take care of it. No one outside of Mrs. Stoddard herself will be permitted to know of it, and the identity of mother and child will be jealously guarded.

MAN RISKS HIS LIFE TO SAVE A PIGEON.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.) CHICAGO BUREAU OF THE TIMES, May 9.—Deputy United States Marshal William H. Streeter today risked his life on the topmost ledge on the eighth floor of the Federal Building to release a pigeon from a rope entanglement.

Attorney E. F. Roodhouse, looking from the window of his office in the Marquette Building, saw the bird struggling to release itself from a rope which had become twisted about its leg at the northeast corner of the Federal Building. He called the Federal Building and told of the bird's plight.

A janitor was sent to release it but the man refused to venture near. Streeter then crawled out on the narrow ledge, crept to the pigeon, released it and crawled back to a window of the Marquette's office, while spectators in the windows of adjoining buildings applauded him.

ARIZONANS GOING TO CAMP. PHOENIX (APR.) May 9.—A half-dozen of the Arizona men for the Presidio training camp will arrive in Los Angeles Thursday morning by the Southern Pacific, leaving at night for San Francisco. Arizona men will give the new officers a reception.

Some Job.

HOME BIDDER MAY BUILD HARBOR BARRACKS.

BIDS on the construction of twenty-five buildings to compose the barracks at Port MacArthur at the harbor were opened yesterday. The work will involve the expenditure of about \$400,000. Several days will be required to tabulate the bids before recommendations can be made, but it is probable John R. Dawson of Los Angeles will be awarded the greater part of the work and that his bid for hollow tile construction will be accepted.

FORTIFY BREAD PRICE INQUIRY.

Many Grocers Swell Charges Against Bakers.

Grand Jury will Use Knife, Starting Monday.

Dealers Cannot Use the Name "Municipal Market."

When the county grand jury meets next Monday the results of the week's investigation of the alleged "bread trust" by the District Attorney's office will be placed before the members for decision as to whether or not the bakers shall be indicted on charges of forcing an increase in the price of bread.

More than twenty grocers and small tradesmen handling bread appeared in the District Attorney's office yesterday in this connection. Each said he had been told by the members for decision as to whether or not the bakers shall be indicted on charges of forcing an increase in the price of bread.

Deputy District Attorney Shelley, who has charge of the investigation of the alleged food and bread trust, was called yesterday upon Assistant United States District Attorney O'Connor to ascertain what assistance, if any, can be depended on from the Federal government in the carrying out of the local inquiry.

Deputy Shelley stated that the investigation, so far as it had proceeded, has shown a violation of the interstate commerce law, which is within the purview of the Federal authorities.

Asst. Dist. Atty. O'Connor replied thereto that if the results achieved by the county authorities warrant the interference of the Federal authorities this will be done, and that his office will co-operate to the fullest extent in the prosecution of the alleged violators of the law.

The Criminal Complaints Committee of the grand jury met yesterday to further investigate the workings of the bread trust. The committee, which is composed of the grand jury members, is to be involved in a number of cases and is to be involved in a number of cases and is to be involved in a number of cases.

Harold Weinstein, State Market Inspector, yesterday conferred with Councilman Wheeler on the local fish situation. The Councilman told him of the fish markets that have been conducted under the supervision of the city market inspector, which, it is alleged, has been a failure. Mr. Weinstein said a bill was passed by the Legislature which would give the Governor, which, it is alleged, has been a failure. Mr. Weinstein said a bill was passed by the Legislature which would give the Governor, which, it is alleged, has been a failure.

Private concerns conducting markets will not be permitted to call them municipal markets, as the result of action taken by the Council yesterday, when the City Attorney was instructed to prepare an ordinance with such a provision. Objection has been made to the name of Municipal Fish Market, and the action was directed at such concerns.

Enough Now. AMENDMENT FOUGHT.

Taxpayers' League Opposes Proposed Law Relating to Dice-Shaking and Other Forms of Gambling—Unfair to Certain Dealers.

The California Taxpayers' League, of which J. P. Paulding is secretary, has issued a statement opposing the proposed amendment relating to dice shaking and other forms of gambling. The league declares the taxpayers should not be put to the expense of this feature of the election.

In its appeal the league members say the passage of the proposed law would still allow a corporation maintaining 900 clear stores over the country to give coupons valued at 10 per cent. while the smaller dealers, unable to give premiums, would lose trade.

The City Prosecutor's office is quoted as saying that the present laws amply cover racing betting.

A Loaf of Stale Bread. [Boston Transcript:] The discovery in Sweden of a loaf of bread made from pea flour in the time of the Vikings, has disclosed the fact that peas were cultivated in Europe more than 1000 years ago.

These Bad Results

follow a lax liver—Constipation; Disordered Stomach; Headache; Biliousness, and other evil, painful, dangerous things.

This Good Old Remedy

comes to the rescue.

Take two or three pills at bedtime—once. After that, one each night; two, now and then, if necessary.

Colorless faces often show the absence of iron in the blood. Carter's Iron Pills will help this condition.

NEW YORK MILLIONAIRES HERE ON BIG MINE DEAL.

SIGNIFICANT in the tremendous interest aroused in the East over the prospect of a war boom in copper is the information regarding a \$500,000 mining deal just closed in Arizona, given out by a party of eastern capitalists upon their arrival here yesterday. The members include twelve representatives of large New York banking houses. They arrived in the private car "Vagabondia" of Harry Payne Whitney.

In the party registered at the Alexandria are: William Morschauer, manufacturer; Frank Bailey, vice-president of Title Guaranty and Trust Company; William Greve, vice-president of the New York Realty Association; Henry Roth, capitalist; John Kuhn, attorney; Edward McCrossin, attorney; W. Glendinning Smith, publisher; C. Palmer Woodbury, president of Woodbury & Co.; John Gergard, Mayor of Long Beach, N. Y.; F. S. Viele, president of the Arizona Power Company; James Murphy and R. Allen Lewis, capitalists.

The mine is Arizona Binghamton, formerly owned by the Stoddard Mines Company. They have purchased 60,000 shares of its stock at \$5 a share, the total issue being \$300,000 shares. Simultaneously, 50,000 shares were sold at the same figure to related interests in Phoenix.

The eastern capitalists became interested in the mine through Senator William H. Reynolds of New York, who expressed the wish that they visit the property as his guests. The deal was consummated soon after they had viewed the mine.

The mine is equipped with a mill that is treating at present some 125 tons a day, and has a recovery of 95 per cent. The concentrates running better than 25 per cent. copper, it is stated. The company is putting in a second mill, and has recently installed two Buchart tables, which will handle 125 tons a day.

Senator Reynolds has financed the property from the beginning, being associated at first with Isaac T. Stoddard fourteen years ago. Mr. Stoddard died two years ago and his son inherited his interest, later selling out to Senator Reynolds. James S. Murphy is consulting engineer. George W. Johnson is general manager.

Senator Reynolds said the East owes its great war prosperity to the purchase of bonds and to its manufacture of all kinds of goods and ammunition.

"The war," he said, "will last a year from this summer unless a revolution hits Germany or England and Russia get in between Germany on the one hand and Turkey and Bulgaria on the other."

Liberty Loan of 1917

This Bank is co-operating in the receiving and forwarding of subscriptions for the new Government Bonds of the issue designated as the Liberty Loan of 1917.

These bonds bear interest at the rate of 3 1/4% per annum, and it has been provided in the authorization act that they may later be exchanged for bonds bearing a higher rate of interest in the event that such additional bonds bearing a higher rate are issued prior to the termination of the war.

Subscriptions for these bonds, which are free from all taxation except estate and inheritance taxes, will be received by the government until June 15th.

It is greatly to be desired that a large subscription to this popular loan shall be recorded, in order that the President and Congress may have full assurance that we are willing to do our part in defending our country and in upholding the principles of liberty and democracy.

According to preliminary announcements, the Liberty Loan Bonds are to be dated July 1st, and will mature in 30 years; redemption may be made in 15 years at the option of the Government. The denominations of the bonds are from \$100 to \$100,000. Payments may be made in installments.

COMPTOMETER

Adding and Calculating Machine

Inadequate knowledge of costs is dangerous

Safety lies in a comprehensive knowledge of costs. But the question is how to get it without too much labor and expense.

The Comptometer enables you to get the facts—quickly, easily and economically. It puts within easy reach exact knowledge of cost of each article produced or handled—expense by departments, by salesmen, by territory—ratio of sales to expense distributed in like manner—comparative statements of gross and net profits month by month, week by week, or day by day.

One Comptometer operator will easily do the work of three mental figure clerks—which means that Comptometer service will expand your knowledge of costs threefold without increasing your clerical force.

Bear in mind, also, that the Comptometer is just as effective on all the figure work of accounting—all possible combinations of adding, multiplying, dividing and subtracting.

Invite a Comptometer man to come in and talk it over with you. He will analyze, step by step, not only your cost work, but your general accounting, payroll, statistical reports, etc.—and will show you by practical service tests, the exact application of the Comptometer to all of these figure operations.

Our Broadway Dining Room Near Seventh

Everybody is interested in these days. Food is the basis of the hour.

We eat for two main reasons: to renew body wastes and to promote body growth. From this standpoint, food building and health-giving are the least expensive, most of price.

People generally prefer a good meal to a bad one. Good in foods rather than in quantity. At Booth Brothers portions are liberal, the food extensive and the quality made up to standard.

You may be a hearty eater, but a craving for a particular delicacy. You may care for meat, but would you enjoy a steak; you might prefer to cake, or berries to whatever it may be the desire, easily satisfied at any one of our dining rooms.

We serve Breakfast, Lunch, Dinner and After-Theater. Open until midnight at 500 South Broadway and 5th St.

TREND OF THE FINANCIAL NEWS.
CHIEF EVENTS OF YESTERDAY.

(At Home): Anxiety over the government's programme of war taxation was reflected in Wall Street. A heavy liquidation of securities, and a further market factor was the administration's plans for taking over the iron and steel mills of the country in order to hasten the construction of ships with which to combat Germany's submarines. Resumption of gold imports, the first since the declaration of a state of war by Congress, was a significant feature of the international situation. Sixteen millions were received from Canada for account of the Allies. Enlarged dealings in the bond market, with recessions of from one to two points.

NEED IT HERE.
 Owing to the strict regulations on imports, gasoline is said to be both scarce and high in Holland. Well, we don't need gasoline in Holland. The United States owns four-fifths of the world's automobiles. We should worry about Holland!

DO THEY MEAN IT?
 Congress will be asked to permit the importation of 100,000 potatoes to help harvest the California crops. Yet all through the summer there will be hundreds of able-bodied Americans sauntering along the boulevards or lounging about employment offices, claiming that they cannot find work.

POOR OLD MAN!
 A girl of 17 has applied for divorce from her 53-year-old husband on the ground of cruelty. For contributing to the old man's delinquency she should be sent to the reform school until she is 21 and then she should be compelled to pay the octogenarian alimony for the rest of his life.

VOCATIONAL PSYCHOLOGY.
 Some of the eastern papers are filled with articles about the "vocational psychology" of women. Vocational psychology is not, as some men unlearned in the nomenclature of female apparel might suppose, a new pattern of dress skirt, a dress waist buttoned down the back, or a pair of trousers with a button fly. The "vocational psychology" of a rightly constituted woman is a disposition on her part to elevate and adorn some good man's life and look to the physical and moral welfare of the twins.

GOING DOWN:
 One of the most vivid pen pictures ever drawn in words is Vivian Regan's description of a man caught in the quicksand without hope of escape. The great French writer tells of the thoughts and feelings of the man as he gradually sinks, struggling lower and lower until his eyes look for the last time upon the smiling skies. The King of Greece is probably suffering from similar sensations just at present. One by one the despots of earth are sinking down into the quicksand of oppression which they themselves have made of the blood and dust of their subjects.

LET'S PLAY FAIR!
 President Wilson is indignant over the disposition of Congress to question his policies, especially in regard to certain provisions of the espionage bill. Both Congress and Senate have been doing their best to uphold Mr. Wilson in every possible way, even when he demanded certain measures and certain powers for himself which might well have been questioned by the representatives of a free country. This is no time for even a hint of a split in administration circles; but the President would do well to remember that he is only one of 100,000,000 citizens of the United States. The people are playing fairly with the government. Everything is open and above board. It is to be hoped the administration will see the wisdom of dealing as fairly with the people.

OUR LADY OF THE SNAKES.
 Canadians are Americans in the best sense of the word. We are proud to call them as products of the same continent, the same systems and the same ideals as we ourselves possess. We are justified, then, in asserting that the Prussian military leaders have already sampled the fine brand of American valor and determination. The recent victories won by the British army in France, the staffs of the Canadian army in the North with whom we have so long fraternized as good comrades in peace.

SHARE AND SHARE ALIKE.
 Under our present tariff laws the Canadian government by admitting our flour and wheat free of duty receives the same privilege in return from us. This means that Canada and the United States are practically equally sharing grain supplies so that both people may share the same loaf. The visible supply of wheat is short in both countries, and these are the two countries on which the world mostly relies for its daily bread. Very little Canadian wheat is now being shipped direct to Europe because better shipping facilities are found in our United States ports. Thus the admission of free wheat from Canada to the United States enables the British people to obtain their food supplies more cheaply. In this way we are directly assisting the cause of the Entente Allies. Under present abnormal conditions this fiscal arrangement should work well for all parties concerned.

THE AROGANT POTATO.
 Pride goes before a fall. That hydrocephalous mole, the potato, has for six months lorded it as supreme grand master of the vegetable kingdom—a king that under scientific analysis yields 90 per cent. of valueless moisture, a few ugly black eyes, a scorbatic skin and the balance mainly starch. A monarch suffering from chronic water on the brain.

Like most monarchs, too, he is by nature the least desirable member of the vegetable kingdom. Compared with the bean, the turnip, the onion, the celery or the asparagus he is a superfluous item in the nourishment of nations. Unlike our human monarchs, no matter how you dress him up, you can't make him impotent.

Had we permitted him to disappear when he became so scarce, instead of magnifying his importance till laws and flowers were sacrificed to his insistent notoriety, till the spud would have passed into ancient history mourned only by those who are victims to habit and convention.

Next time we shall know better. We shall abolish him altogether. This time we pursued an opposite course. We have made him so numerous that people cease to "make over" him. Anyhow we have humbled his pride.

Thank the Lord, his little despotic reign is coming to an end. At last he is plucked down from the stars and restored to the dirt where he belongs. In a few months he will be a drug on the market and a bushel of him held in less esteem than an American Beauty rose. Those who plowed up lawns and shrubberies will look ruefully on the dusty broken land—that once represented neat and ornamental gardens. For nothing is more untidy than a piece of ground from which a crop of potatoes has just been extracted. They will wish then they had planted any other vegetable, sweet corn or tomatoes or bell peppers, that would at least have justified them in sacrificing the beautiful for the useful.

In the coming days of cheap potatoes some of us will regret the many quarters spent for a small paper sack holding five or six nobbly specimens, the peellings from which alone represented a wasted nickel.

Then we shall smile at the idea that we once seriously talked of rice as a possible substitute for potatoes; rice that feeds one-half the people of the world, who would long ago have died of malnutrition had they substituted potatoes for rice.

WISE AND UNWISE ECONOMY.
 If the United States were to furnish 12,000,000 soldiers for the war, it would do no more proportionally than Great Britain has done, for from a population of 45,000,000 people there have been drawn approximately 6,000,000 men for the army and navy, and in France as large a proportion has been taken.

To accomplish this, women have been substituted for men in many industries, textile mills have not been run on mere style changes, but their labor supply has been devoted to making cloth for the army, and unnecessary expenditures in the factories, the shops and the homes have been curtailed. Increased production rather than decreased consumption is the patriotic duty of the American people. We should not eat less potatoes, but grow more, or consume less bread, but plant more wheat and corn. The economic changes should be similarly adjusted to changed conditions.

Our looms may weave less silk but they should make more woolen and cotton fabrics, and the making of rifles and munitions on the forge should not lessen the making of plowshares, and steel plate for cans. That it has not done so is evidenced by the fact, as stated in the May bulletin of the National City Bank of New York, "that the steel industry has been stimulated by the war. On December 31, 1914, the total capacity of the country for making steel billets and castings was 40,515,325 tons, and on December 31, 1916, according to the preliminary estimate of the American Iron and Steel Institute, it was 48,770,000, with 6,283,500 additional tons capacity building. The increase already in service on January 1st last was therefore 20 per cent., and when present construction is completed the increase will be 35 per cent. over the capacity of 1914."

Several leading industries have been expanded rather than contracted by the war. The lumber business has not been hurt in its foreign trade by the war or limited at home by the railway blockade. It has been stimulated by the wooden shipbuilding programme and needs more instead of less labor. The textile industries and the shoe-making establishments have increased their capacity more than 5 per cent. in the last two years and the entrance of the United States into the war and its calls for clothing and footwear for our soldiers will increase the demand for cloth and leather goods.

A War Measure.

will there be no unemployment but that every worker will be employed in the manner most serviceable to the country."

THAT GERMAN REVOLUTION.
 We have figured somewhat prematurely on a revolution in Germany bringing the monstrous world war to a speedy and satisfactory conclusion. It certainly would be a blessed ending if the German people should thus work out their own salvation. To a great extent, we fear, the wish has been father to the thought.

When we examine the reliable statements of Americans acquainted through personal experience with actual conditions in Germany both before and during the war, we only deceive ourselves by placing too much reliance on the speedy advent of a German revolution.

We have taken the Russian revolution as a hopeful sign that all Europe will switch over to democracy. But we cannot measure Germany with a Russian yard stick. The fundamental difference between the two nations is too obvious. Germany is the most highly educated country in the world, with the lowest percentage of illiteracy, and educated along one narrow line with one consummate end in view. Russia is the least educated and the most easily swayed by sentiment and appeal. Germany is the most thoroughly organized and centralized of world powers. Russia is the most poorly disciplined and most heterogeneous.

Civilian Germany, through her schools and colleges and religious institutions, was wholeheartedly behind the government in entering the war for world dominion. Russian universities have always been the rallying ground for revolutionary spirits and the Russian people were always, in peace or war, sullenly against the Czar and the bureaucrats.

There is little reason for the belief that because loose-jointed and disorganized Russia could so swiftly revolutionize its political system, that close, knitted and systematized Germany can be induced easily to follow the example of those they have been taught to regard as a lower creation of beings.

Mr. Hoover has told us that Germany has enough provisions stored to last her at least another two years. Nothing short of starvation will shake the mass of the German people in their confidence that their army is invincible. Nothing short of actual starvation or a complete military collapse, equally improbable, will end the war as speedily as we wish to believe it can be ended. For Germany has been well drilled in the school of Spartan fortitude and saturated with the belief that the God of the universe is before everything else a God of the Germans. To obliterate this conviction from the mass of the Teutonic people, in whom it has been ingrained from the first kindergarten primer to the last philosophical treatise of the finishing universities, will require more suffering and more sacrifice than they have yet been called upon to endure.

THAT BULKY BALLOT.
 There was a trifling array of some 120 names on the ballot for the recent municipal primary. It is all right to say trifling because many of the names were merely those of triflers. They were not to be seriously considered in the reckoning, even by themselves. Yet because of their presence and numbers the election officials in many of the precincts had to work all night and far into another day.

A considerable number of the candidates for the Council did not receive nearly as many votes in the primary as they had signatures on their nominating petitions. It seems almost like a crime against economy and the public good when such a condition is permitted to exist.

Here are a lot of men throwing away their own money and time as well as trifling with the money and time of the public merely for the doubtful joy of running for an office for which they cannot be seriously considered or for which they are palpably unqualified. Some curbstone orators take pleasure in the declaration that any man has the right to run for any office. This is a drive that has become popular belief. No

man has a right to run for an office for which he is manifestly incompetent, nor should his name be suffered to incubate the ballot.

How much cleaner and better a selection was put before the voters when the candidates were presented by a responsible and organized party or source. How much more representative a ticket could be formulated by that plan than through a system which would permit the entire membership of the Council to be made up of Socialists living in one block of the city.

The tendency everywhere is for fewer elections, a shorter ballot and a definite responsibility; but here the reformers have turned the steering wheel around and are running to free-for-all elections every ten minutes, with a referendum between meals, and costing the community \$1,000,000 a year.

The ballot has been cheapened to the extent that a good many reputable folk who ought always to vote will not take the trouble to go to the polls. They can't find anything on the ballot worth voting for and they won't take the trouble to journey to the booth to say nay.

MASONIC ANNIVERSARY.
 On the 10th of May, 1717—200 years ago—Freemasonry, which was not dead but had not been active as a vocal force for a long period of time, was revived in London. A few weeks afterwards the first grand lodge was formed and since then the growth of the order—especially in English speaking countries—has been continuous and rapid. In the United States alone there are 1,829,255 members of the Masonic order.

The essential principle of Masonry is freedom of order; a proper consciousness of worth in every breast; a recognition by each man of the worth and claims of every other, and an acknowledgment by all of a common and controlling law.

No edifice which ancient Masons reared was equal to the living structure of which they are portions. Freemasonry, quietly, unostentatiously, unobtrusively, marches hand in hand with civilization. Its origin runs back to the misty ages, far beyond the reach of history's pen or tradition's tongue. In its ranks kings have gladly taken their places and sat them down with lowly subjects. There the man of might has clasped in friendship the hand of him of humblest position and poorest means. Masonry has smoothed away the unevenness of life and regarded with equal favor the worthy poor and worthy rich. The scholar, the philosopher, the man of science and of song, the mechanic, the laborer, the merchant, the miner, the farmer, the lawyer and the physician, have all paid glad tribute to its worth, its usefulness and its power.

While rank and wealth divide society fit to classes; while political and religious differences create animosities, Masonry speaks a universal language which all men understand, and occupies a platform broad enough and firm enough for all the world. It violates no law. It wars with no sect, party or State. It obeys literally the divine admonition, "Let not thy left hand know what thy right hand doeth" and performs in secret the holy office of charity.

Wherever sin and wrong have cast their dark shadow, there is Masonry, to reclaim the erring and lead the repentant again to paths of peace. Wherever are sickness and sorrow, there is Masonry, to watch and soothe; wherever is death, there is Masonry, to commit, with solemn rites, the lifeless form to the silence of the grave.

OUR COUNTRY, RIGHT.

[The Independent.] We have always objected to the use of that misleading phrase "Our country, right or wrong," because it implies that no wrong should have no conscience and should not repent its misdeeds. But at least an equal objection to the saying is its subtle implication that we are doing something that won't bear analysis. If it is ever appropriate, now is certainly not the time when the United States is engaged in the most righteous and completely justifiable war which we have ever fought. With a good conscience we can say "Our country, right," without weakening our assertion by a superfluous explanation of what our attitude would be if it wasn't.

We fought the Revolutionary War because we could not tolerate the ignorant interference of King George the Third and his ministers in affairs that concerned the colonies. But the rule of the British monarch was mild, constitutional and parliamentary compared to that of the autocrats of Central Europe.

We fought the War of 1812 because we resented the seizure of our ships and the impressment of our seamen. But nothing in the whole category of wrongs that provoked us to war then could be compared with the wholesale murder of our citizens on the high seas by the German submarines. The "continental system" of Napoleon and the "orders in council" of the British Ministry were venial enough, but they did not involve massacre of neutral civilians.

We fought the Mexican War to transfer the Southwest from Mexican to American control. By the Zimmerman plot our enemies have attempted to transfer this region back again to Mexico, although it had in the meantime been settled and developed by millions of Americans.

We fought the Civil War to prevent the rise of a new republic based on negro slavery. The Germans have begun their attempt to build up a new empire by reducing to political subjection every region that their armies could reach and by enslaving in the most literal sense of the word thousands of Belgian workmen.

We fought the Spanish War because we could not tolerate Spanish misrule in Cuba. But nothing in the history of Cuba exceeds in atrocity the German occupation of Belgium and Northern France, and the Turkish attempt to exterminate the whole Armenian race has no historical parallel whatever since the Tartar invasion of Asia and Eastern Europe.

Every evil against which the United States has ever made war it now meets once more in an aggravated form; and if we are now wrong we have never been right.

RIPLING RHYMES.

THE BATTLE CALL.

When battle steeds are prancing and brave men are advancing to knock the foemen silly, will you be there, oh, Willie? Big, strong and battle-tested, why haven't you enlisted? You should require no urging; from craven sloth emerging, you should, in warlike manner, be marching 'neath the banner, a shotgun on your shoulder, before you're conscripted. Your champion and excuse aren't worth a pair of dimes. What if a German kills you? What if a Prussian drills you? If you should be a goner, we'll bury you with honor and fire a parting volley over one who perished bravely. You'll live in song and story and have all kinds of glory, and you'll look down from Alden with harp and white wings laden, and say, "I'm glad I perished to be thus praised and cherished!" But if you sink and tremble when fighting men assemble, and do some punk explaining away your're at home remaining. You'll find that shame is near you, the world will flout and jeer you. Big, strong and battle-tested, why haven't you enlisted?

WALT MASON.

BACK TO THE SOIL.

[As It May Be Practiced at the Golf Clubs.]

[Cleveland Leader.] Arrangements for the raising of various crops on courses of local golf clubs have been completed, in accordance with the "back to the soil" movement.

At the Country Club, all the caddies will be furnished with bags filled with diverse seeds. When the green is mowed, the caddy will be planted by the caddy, instead of the sod being replaced. Unanimously approved.

Willowick, on the other hand, will sacrifice its fine willow trees. These will be made into baseball bats and distributed to various organizations for home drill. (Suggested by the success in military maneuvers achieved by the Indians.)

Pickles will be nurtured at the Oakwood course. Dills, sweeties, and all of the other fifty-five varieties will be obtained from Mr. Heinz and sprouted in the generous sand traps, for which the course is noted. With proper care, experts declare, these will increase and multiply to a tremendous degree.

Because of the number of balls lost on the Mayfield links, an ingenious member has devised a ball which, when exposed to sun and rain, will disintegrate. Seeds will be placed in the center of each ball. These, blown by the wind, will automatically plant themselves, insuring a maximum of result at a minimum of labor.

NEW RUSSIA AND THE NEAR EAST.

[Continued in The Times.]
 BY ADAMANTIOS TH. POLYZOIDES.
 Formerly Managing Editor of the New York Atlantic.

WHEN Minister Kerensky of New Russia spoke in favor of the internationalization of Constantinople, he certainly went a long way towards lifting an age-long nightmare which lay heavy on the bosom of every people of the Balkan peninsula. No matter what the feelings between Rumanian and Bulgarian, and Bulgarian and Serb, and Bulgarian and Greek and vice versa, all these nationalities were always united in a common fear of the mighty Russ coming from the north. Rumania, after the frontier rectification of 1878 which took Bessarabia away from her, looked always in a spirit of distrust towards her erstwhile ally and powerful neighbor, Bulgaria, as she was from the Hungarian and the Bulgarian side, she wondered what would become of her the day when Russian domination would be permanently established in the Balkans. The Golden Horn, the fate of Ukraine was a continuous warning to the patriots of Bulgaria. Bulgaria, on the other hand, had a taste of what Russian domination means since the days when, following the establishment of Bulgarian independence, Russian generals and Russian officials undertook to organize the new state. It is Russia, by adroit manipulation in Sofia, who was successful in keeping a Russophile party alive for the past thirty years, but, on the other hand, such men as Stambouloff and Ferdinand always fought for an out and out independent Bulgaria, with no trace of Slavism in it.

An autocratic Russia, almost just as oriental as the Turkish empire, would have called the fate of the Balkan nation in the Ottoman empire of today had a Russian Emperor made of Constantinople his capital. Russia would have swallowed those Greeks who had swallowed the others who went there five centuries ago. The Orthodox Patriarchate of Constantinople, that Occidental bulwark of the old national and religious faith, would crumble under the numerical supremacy of the clergy of the Black Sea.

The democratization of Russia has neutralized the danger from the north, the hardihood of the United States of America in the war is a further guaranty that the rights of the small nationalities will precede the exigencies of insatiable imperialism.

The world at large is familiar with the old argument, that Russia must have Constantinople and the Dardanelles in order to assure her free water communication with the outside world. Unfoundedly Russia must have free communication by water, warm water, with the outside world, but all the same time it is of the most importance to all the peoples of the Near East that she must not have Constantinople and the Dardanelles. This is the brilliant champion of popular rights, Mr. Kerensky, was the first of his countrymen to understand what he proposed the internationalization of Constantinople and the straits.

In this way Russia has all the needs, and threatens no one. The old scheme of making of the Black Sea and the Marmara two Russian lakes are out of keeping with the spirit of the present struggle; this scheme belongs to the imperialistic ambitions of old Russia. It has no place in the new democracy. The seas of the world must be nobody's lakes if humanity is to be spared another catastrophe like the one we are witnessing today.

If Russia has acknowledged rights in the Black Sea, so have all the near eastern peoples, Rumanians and Bulgarians, and Greeks and Armenians, who, if they are to become a free nation must secure a port on the Black Sea. And if Albania was created by Europe from a motley of semi-barbarous tribes, there is no reason why Armenia, with a history stretching back for entire centuries, should not be given the chance of marching towards her new destinies as a free nation.

The unfortunate, the good intentions of Mr. Kerensky are somewhat overshadowed by the statements of his colleague, Mr. Millukoff, who prefers to take a leaf out of Imperial Russia's book by claiming that Russia must positively have Constantinople and the Dardanelles, because, in his opinion:

"In the event of the neutralization of the Dardanelles, the entry of foreign warships into the Black Sea would force Russia to think perpetually about fortifying the Black Sea coasts and to maintain a powerful navy. Such a condition of things would be worse than what existed before the war."

Mr. Millukoff, however, forgets that in the case of Russia's taking Constantinople and the Straits, Great Britain will hold the Islands of Tenedos and Imbros just outside of the Hellespont in the Aegean Sea, thus again controlling Russian warm water communication with the outside world. He also forgets that the Balkan problem, which has been the mainspring of all the troubles of Europe since the Crimean War, will not be settled by the Russian occupation of Constantinople, but rendered more difficult and more complex, because the question of keeping the Russian out of the Bosphorus is the only one on which Rumanian and Bulgarian and Greek agree.

The fear that Russia, once master of Constantinople, will strangle the other Orthodox Christian nationalities of the Balkans, becomes more justified by the statement of Mr. Millukoff himself, when he says that "the Rumanians will be amalgamated with our own Ukraine."

Preparations, even now, are being made to enlist professionals of the various organizations in a "Millies' Band."

PEN POINT.

BY THE STAFF.
 "United" is the United States. Heavy snows in some of the East. The time is fairly out of joint.

It is easy enough to say "United" is the United States. The best way to help the United States is to help the United States. The best way to help the United States is to help the United States.

With Jess Willard and his list for the government, really as good as "United" is the United States.

Secretary Baker says the United States is the United States. The best way to help the United States is to help the United States.

The propaganda of the United States is the United States. The best way to help the United States is to help the United States.

We could build a better United States. The best way to help the United States is to help the United States.

It used to be said that the United States is the United States. The best way to help the United States is to help the United States.

The folks who break the United States are the United States. The best way to help the United States is to help the United States.

The New York United States is the United States. The best way to help the United States is to help the United States.

The folks who break the United States are the United States. The best way to help the United States is to help the United States.

In the campaign for the United States, the best way to help the United States is to help the United States.

Community singing for the United States, the best way to help the United States is to help the United States.

Any, recalling the United States, the best way to help the United States is to help the United States.

Clark are quarrelling over the United States, the best way to help the United States is to help the United States.

One of our problems for the United States, the best way to help the United States is to help the United States.

It would seem that the United States, the best way to help the United States is to help the United States.

"THE HIGH COST" for the United States, the best way to help the United States is to help the United States.

Now what's a high cost for the United States, the best way to help the United States is to help the United States.

"The war has been for the United States, the best way to help the United States is to help the United States.

Just look at him for the United States, the best way to help the United States is to help the United States.

Why, just the other day for the United States, the best way to help the United States is to help the United States.

I kinder likes my life for the United States, the best way to help the United States is to help the United States.

TO BEAR LAKE.SPECIAL CORRESPONDENCE
SAN BERNARDINO, May 9.Bear Valley will soon be ac-
cessible by three routes, ac-
cording to the announcement
today of County Highway Com-
missioner L. R. Lothrop, who
opened the Mill Creek-Santa
Ana Canyon route into the
mountains. Before the end of
this week the crest road will
be opened. Crews have passed
Green Valley and are now
clearing the last stretches of
blockaded road over the
"snow slides." Yesterday the
regular stages and private ma-
chines were sent up Mill Creek
for the first time since fall.
The Supervisors will reverse
the system of sending cars up
and down the Mill Creek road.
Cars will be sent up from Har-
vey on the odd hours and
down from Mountain Home on
the even hours.The regular stages and private ma-

WORRIED LOOK.Thinks L.A.A.C. Water Ex-
perts are up Against It.San Diego Team Contains All
the Elements of Class.Big Aquatic Carnival to be
Best of Season.

BY WARDE FOWLER.

Prof. Frederick Vance Veith tried
to muster up a frown yesterday
and pretend he was worried about
the Los Angeles Athletic Club-San Diego
Rowing Club swimming meet sched-
uled for May 17."I'll tell you," muttered the pro-
fessor, "we're in a bad way. A good
many of our swimmers have left
town and several others are not in
satisfactory shape. That San Diego
team is a high-grade outfit, and
they would rather lick us than slip
coupons on 20 per cent. interest-
bearing bonds. Unless something
happens we're going to get defeated.
I'm worried, I tell you.""By the way, how many meets
have you lost in the last three
years?" he asked Veith."Well," admitted the professor,
"we haven't lost a single one, to tell
you the truth, but this is the end of
our winning streak. It's tough luck.""Sure it is," we sympathized, "but
now get right down to actual
facts, what events do you expect to
lose in this coming battle?"Veith was dumbfounded. "When it
came down to admitting that he was
going to actually lose an event, that
was a little too much. A radiant
and smiling smile gradually chased the frown
across his manly face."Listen," said the professor, "I
think we're going to win every event
on the bill-of-fare. We've got to
that, all right. Why, if that San Diego
team succeeded in defeating us, it
would talk about it until they
dropped dead. But don't tell any-
one that we're going to win. I want
it to be a complete surprise."

STIFF COMPETITION.

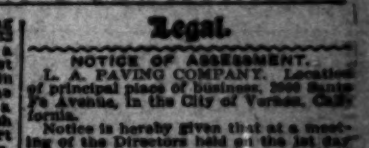

That the Los Angeles Athletic Club
will have some interesting competi-
tion there is no doubt. The San
Diego Rowing Club has lined up a
wonderful collection of water talent,
and the southern gang seems to be
capable of stepping with the best of
them. And every effort will be made
to win this particular affair.For three successive meets the
L.A.A.C. has walked away with the
honors, and the southern figures
that now is the time to strike.The local organization, however,
appears to have the toughest look
of the two.Sandy "Pie" Goodman should
have comparatively little trouble
rumpling home with first prize in
the sprint. This gent is one of the
fastest sprinters in the United
States, and there is no man who
has ever been able to keep up with
him. Goodman has been spending
much of his time leading around the
beach near Los Henry's famous wa-
ter emporium, and is in excellent
condition.Goodman will be aided
abundantly in the 50-yard dash by Jack
Kilburn, who ought to cross the line
hand-in-hand with "Pie." Just how
fast they are, the local figures
show. In the 100-yard dash, however,
the local figures show that the local
team is in close to second place.In the 100-yard dash, however,

Mr. Walsh, better known as "Mary Sunshine," will be seen at the Palace in "Sunshine and Gold."

Chase's Broadway.

The sensational success, "The Triflers," now at Chase's Broadway Theater, will have its first performance Sunday to "Happiness," an epic written by C. Gardner Sullivan, directed by Reginald Barker and starring Eddi Bennett. In the supporting cast will be seen Charles Gunn, Thelma Salter, Gertrude Claire, Andrew Brubaker, Adelle Rade and Jack Gilbert.

Symphony.

"Gods Law and Man's" may seem like a mixture of tragedy and comedy, but in reality it is a pretty romance, shown at the Broadway Theater this week. The story features Viola Dana, who plays the part of a Hindu maid who is about to be sacrificed to a lot of grinning gods, but who is saved from this terrible fate by a romantic young Englishman.

The attraction beginning Sunday will be "Lionel Barrymore in 'The Millionaire's Double'."

Alhambra.

With Blanche Sweet in the lead and Edith Dwyer, Tom Forman, Billy Jacobs for support, the Alhambra Theater will next week present the Lasky-Lasky production, "The Girl at Home," featuring the popular star, Blanche Sweet.

For the rest of this week the attraction at the Alhambra will be "The Girl at Home," featuring the popular star, Blanche Sweet.

Will be seen at the Palace in "Sunshine and Gold."

VALLEY SENDS BEEF TO EAST.

Carload of Fat Steers Goes to Kansas City Instead of Los Angeles.

(DIRECT WIRE—EXCLUSIVE DISPATCH.)

CALIFORNIA, May 9.—A carload of steers, fattened on a balanced ration and scientifically fed on the Fuller Bros. ranch, was sent to Kansas City yesterday. This is the first shipment of steers for Kansas City ever sent out of California, railroad men say, the best raised near here usually going to Los Angeles. It is believed that the fat steers sent will bring the highest price.

HOUSE REFLECTS SPIRIT OF LOVE.

WOODMEN OF THE WORLD BUILD IT FOR A WIDOW.

POMONA, May 9.—The better the day the better the deed is the way the Woodmen of the World at Pomona and Norwalk look at it when it comes to lending a helping hand to the family of a deceased brother.

On Sunday the Norwalk and Pomona boys finished a four-room house which they built for Mrs. R. C. Tibbet of this city. The house stands on East Seventh street near Towne avenue, and is a splendid example of the spirit of brotherly love.

R. C. Tibbet was a member of Norwalk Camp No. 317 for fourteen years. He moved to this city about a year ago and died in January. He did not leave a large estate, but among the things he did possess was a clear lot on Seventh street.

The Woodmen of the World decided to get together and build a house on the lot.

Sunday was the only day they could work on the building, but that did not retard their enthusiasm. They bought \$200 worth of lumber and nails, and at once began sawing boards. Fred Hartman of this city furnished all the carpenter tools, the ladders, the paint and the brushes.

The Norwalk boys came over each Sunday in their automobiles, and in three days the job was done.

It is a four-room bungalow, complete with roomy closets, porch and outbuildings. The house is finished in brown. The workmanship in it is fine. Even the plumbing was installed by the Woodmen of the World and the building as it stands today is worth at least \$500. There are a number of fine fruit trees on the lot, and there is room for a good garden, so the place ought to make a comfortable home for Mrs. Tibbet and her children.

Different shifts of lodge men from both cities worked on the house each Sunday, and the credit belongs to the lodges rather than to the individuals, but the following men were engaged in putting up the cozy cottage on the day the house was finished: H. H. Miller, Jack Shawman, C. Stout, G. A. Hinton, Fred Hartman, S. A. Arbutnot, George Tyler, J. J. Brubaker, Ray Hillier and J. G. Boake of Pomona; Fred Baumgartner, J. W. Owsley, J. L. Daves, J. P. Phillips and E. P. Saunders of Norwalk.

Improvements this year at Coronado Tent City greatly add to the pleasure and comfort of guests.—(Advertisement.)

LOPEZ WAS BOUND HE'D GET MARRIED.

(LOCAL CORRESPONDENCE.)

VENTURA, May 9.—Ramon Lopez is again in the matrimonial campaign, taking out a marriage license to be wedded to Maria Mendosa, 18 years old. He gave his age as 21.

A few months ago Lopez and Bedelia Murr, a 15-year-old Syrian girl, eloped and were hurriedly married here. Scarcely had the marriage taken place when a posse of representatives of the Syrian colony, hunting for the girl, arrived on the scene just too late, as the groom had carried his little bride away on their honeymoon trip. It was but a few days until the bride was recovered and her return to her parental home was insisted upon because of her youth.

Action to annul the marriage was instituted by the girl's parents and fought desperately by Lopez. When it was established that she was under age and had not been given her parent's consent, the marriage was annulled. Judge Rogers handing back to Lopez the wedding ring. The girl return to live with her parents.

When Lopez again applied for license the county officials suspected all was not well, but upon investigation the truth was convincing and the license was granted.

From the Gallows.

BATTLE TO SAVE PIO PICO'S MURDERER.

(DIRECT WIRE—EXCLUSIVE DISPATCH.)

BARBARA, May 9.—To save Richard Pico from the gallows for the murder of Pio Pico, who killed the man who had killed his father, a battle is being fought in the courts.

Pico's trial is set for May 17. Attorney Horace Appel of Los Angeles has been retained by the young widow's relatives to defend her.

SAGE SLIVER KILLS.

DEMONSTRATE LOVE, ESTEEM.

San Diego Gives Remarkable Luncheon to Diva.

Schumann-Heink Charms with Appreciation of U.S.

"Love and War" March Played for First Time.

SAN DIEGO, May 9.—San Diegans today demonstrated their love and esteem for Mme. Schumann-Heink, the great singer who they consider their own, as an unusual luncheon given in the U. S. Grant Hotel by the Ad Club. Schumann-Heink is an honorary member of the organization and today other civic organizations, including the Chamber of Commerce, the Merchants Association and the San Diego Progress Commission, joined in the Ad Club luncheon, as well as many women, to express their appreciation of the singer who has done so much for San Diego's exposition and for the city. Although tickets were sold for \$2.50, there were 250 eager persons served and many hundreds were turned away.

Mrs. Shelley H. Tolhurst of Los Angeles, member of the State Council of Defense, was the speaker of the day and talked on "Woman's Part in the Program of Defense." Many persons of national importance were present, including Governor J. G. Gage, John Spreckels, G. A. Davidson, president of the exposition, U. S. Grant and others.

LOCAL PRODUCTS.

Conservation of the food supply of the country was the dominant tone of the luncheon and a home garden menu was served from products raised in San Diego.

Jack C. Thompson of the Ad Club introduced W. S. Dorland, president of the Chamber of Commerce, who presided. McVilvillier, chairman of the Army and Navy Committee of the chamber, outlined the county defense board's work and described San Diego's safety today, which is to be published to the world by this board.

Mrs. Tolhurst, in her talk on the woman's work in the defense program, told of the necessity of women looking after the foreign-born citizens of the need of looking after those whose support was taken from them by the war, and the immediate families which would be cared for by the government, but the more remotely related people. She also pointed out the necessity of safeguarding the child labor laws in case of war.

The great crowd responded to a toast to the "Star Spangled Banner," which was sung by the Twenty-first Infantry Band, which played in the lobby of the hotel throughout the luncheon.

"LOVE AND WAR."

The premier of "Love and War," a stirring march, words and music by Charles Fritzsche of Los Angeles, was the feature of the musical program of the band. The march has been dedicated to the army and is destined, it was said by critics today, to become one of its best marching pieces.

Bandmaster F. G. Butler of the Twenty-first Infantry Band, who made the delightful arrangement of the music was enthusiastic in regard to the stirring composition. His organization, one of the best military bands in the country, rendered it splendidly and the march received the warm applause of the big crowd that thronged the banquet-room and the hotel lobby.

Both Mme. Schumann-Heink and Mrs. Tolhurst were presented with huge bouquets of American Beauty roses.

Resolutions expressing the pride of the citizens at having Mme. Schumann-Heink a resident of San Diego and their heartfelt affection and profound honor and respect were presented to the diva. The resolutions were offered by the various organizations headed by the Ad Club.

IS DEEPLY AFFECTED.

At the close of the speeches, Schumann-Heink, deeply affected, arose and brokenly, in a few German phrases, expressed her loyalty to San Diego and America. Then, in her pretty English, said:

"I cannot find a word in English to express the German 'treue,' meaning faith, loyalty and truth, but I shall be faithful, true and loyal to San Diego, America, forever, until death."

As the diva left the table with these words her eyes were dim with tears.

HERE'S A REAL EXTERMINATOR.

San Gabriel Outdoes South Pasadena in Tackling Billboards.

(LOCAL CORRESPONDENCE.)

SAN GABRIEL, May 9.—Anti-billboard enthusiasts here look to this city for the model ordinance, that most completely deals with the nuisance. The City Clerk, under instructions of the Trustees, secured copies of various ordinances passed by municipalities.

That of South Pasadena was considered the best as it limited signs to 2x3 feet. It sets no limit to the number of these signs to a lot, however. So the San Gabriel board adopted the South Pasadena ordinance with the amendment restricting the number of signs of nine square feet or less to one to a lot, thereby going the model South Pasadena ordinance one better. Cities wanting to rid themselves entirely of the detrimental billboard should write San Gabriel for the real sign-board exterminator.

HOTEL RUMORS FALSE.

A rumor circulated that Hotel del Coronado was to be closed this summer and that the building was to be moved to Pacific Beach was denied today. "Both reports are absolutely ridiculous and without foundations," said the management.

Coronado.—The most interesting Pacific Coast beach. Reservations 527 Spring st.—(Advertisement.)

WHITTIER IS READY TO RAISE THE ROOF.

(LOCAL CORRESPONDENCE.)

WHITTIER, May 9.—The fund for the Greater Whittier College now totals \$75,000. The General Committee is working hard to raise the sum \$100,000 by Saturday night. If its plans are realized it is the intention to hold a parade and jollification here on Saturday night. Bells will be rung, whistles will blow and they consider their own, as an unusual luncheon given in the U. S. Grant Hotel by the Ad Club. Schumann-Heink is an honorary member of the organization and today other civic organizations, including the Chamber of Commerce, the Merchants Association and the San Diego Progress Commission, joined in the Ad Club luncheon, as well as many women, to express their appreciation of the singer who has done so much for San Diego's exposition and for the city. COMPLETE SURVEY ON WESTERN END.

THREE POSSIBLE ROUTES FOR COUNTY HIGHWAYS.

Santa Margarita, Paso Robles and San Miguel All Hope to be Chosen for the Kern and San Luis Obispo Road Connecting Coast and Interior.

(LOCAL CORRESPONDENCE.)

SAN LUIS OBISPO, May 9.—State engineers have completed the survey for the Kern county and San Luis Obispo county highways as far as the western end is concerned. Three surveys have been made from Shandon this way, one to San Miguel, one to Paso Robles and another to Santa Margarita.

The second one is the shortest of the three, but the first is said to have the easiest grade and would be least expensive to build. However, there would be an expensive bridge to build at San Miguel where that route chosen, whereas there is already a splendid bridge at Paso Robles. There is a good bridge at Santa Margarita, but in order to reach it a much more mountainous country must be traversed. Accordingly, were conditions equal otherwise, San Miguel, it is said, would get the road. But many argue that the bridge at Paso Robles will determine the location.

The crews are now testing out the various routes in the neighborhood of the Palo Prieta, beyond Cholame, from Lost Hills, there is a long stretch of road already constructed by Kern county, which will of course be utilized; therefore that part of the line is determined. The constructed section leads to the highway at Pismo, twenty miles north of Bakersfield.

RIVERSIDE COMPANY WINS BIG CONTRACT.

(LOCAL CORRESPONDENCE.)

VISALIA, May 9.—With a bid that was nearly 20 cents per barrel lower than the nearest competitors, the Riverside Portland Cement Company of Riverside was given the contract for furnishing all the cement to be used in Tulare county's \$2,000,000 system of highways, for which contracts will probably be let this month.

At the same session of the Board of Supervisors all offers for furnishing crushed stone and gravel were rejected when the County Surveyor declared the profferers were too high. Contracts for the road laying will cover construction only, the county proposing to furnish all material purchased under separate bids.

PEAR BLIGHT FIGHT WAGED AT YUCAIPA.

(LOCAL CORRESPONDENCE.)

YUCAIPA, May 9.—The pear growers of the valley have begun their annual spring fight against the pear blight which has just made its appearance in the orchards. Every infected twig is being cut away and the trees are being sprayed. All tools are disinfected after being used to prevent the spread of the disease. So far there have been only isolated cases of the blight in the orchards and the growers' quick work will prevent a spread of the disease.

OUR FINAL NOTICE.

The End of India Paper.

Your order for the new Encyclopaedia Britannica printed on genuine India paper must be sent us on or before Saturday, May 26.

—if you expect to obtain a set. (It may be that the last set will be gone a day or two earlier.)

NOW—or never!

When the last set is sold, no more can be offered printed on genuine India paper—because there is no more India paper.

Before you order be sure the Britannica will be useful to you—as helpful to you as it is to the 180,000 men and women who already own a set. Go and see the Britannica at

A. HAMBURGER & SONS, Inc. Broadway, Eighth & Hill Sts.

But do this today. Decide TODAY whether or not you really want one of these last sets on the famous India paper. If you do, then leave your order for a set. Or, if more convenient, send in this reserve order to us—at once.

Only \$1 down (or with Reserve Order) secures a set. You may pay the balance in a limited number of small monthly payments. But finally, it is

NOW—or never

if you want the Britannica printed on genuine India paper.

POISONS CROP OF JAPANESE

Blackmail Gang is Accused of Raising Ranch.

Acid Sprays Used, Plants and Flowers Torn Up.

Victim Says Own Countrymen are Punishing Him.

Guerrilla raids by a "poison band" of Japanese ploters are again reported by A. Kato, prosperous Japanese rancher of Long Beach, who declares the despoilers destroyed his crops at midnight last Tuesday, causing damage of \$5000. With his attorney, H. L. Geisler, he appeared in the District Attorney's office yesterday asking relief. His information may be placed before the grand jury.

Several weeks ago, Kato said, he was asked to contribute more than he could afford to a Japanese fund. Friends, however, informed him it was blackmail, and he refused to subscribe any amount. Then came threats of reprisals if he ignored the demands. Last Friday night raiders, armed with acid sprays, traveled over a greater part of his crop, scattering poison over the tender plants and blighting the entire crop. Also the raiders poisoned several head of cattle. After that visit Kato again was warned to contribute. He defied the demands, and the second raid occurred last Tuesday night, when the miscreants uprooted three acres of valuable plants and flower beds. Diet-Ary, Woolwine is investigating the case.

ROB NEWLYWEDS OF ALL THEIR BAGGAGE

FRIENDS GIVE THEM A HAZING THAT'S EMBARRASSING.

Attentions are so persistent that this Eagle Rock Couple Check Out for Parts Unknown as Soon as They are Able to Obtain Another Supply of Necessities.

War had little on the hazing given Mr. and Mrs. E. J. Broxhorne yesterday at the Angeles. The couple were married at Eagle Rock. They intended to take an extensive wedding trip. Their first stop was Los Angeles. Friends shadowed them, and when they arrived at their hotel, some of the former dashed in, grabbed their luggage and disappeared. All efforts to trace the thieves failed, and the bride and groom found themselves without luggage.

Throughout the day, telephone calls, messages and other annoyances were attempted, some succeeding despite the vigilance of the hotel management, which tried to shield its guests. The practical jokes reached a climax to their efforts when they informed the Sheriff's office that Mr. and Mrs. Broxhorne were "wanted."

Deputies were sent to the hotel and started to investigate the couple, but quickly realized that they had been duped into abetting the hazers. As soon as the honorees learned could secure another supply of necessities, they checked out of the hotel and left for parts unknown, threatening however to do some drastic "getting even" on their return to Eagle Rock.

DELAY IS EXPENSIVE.

Court Holds that Luckenbach Cannot Collect Rent from a Political Club Because He Did Not Present Bill Within Specified Period.

Under an instructed verdict the jury trying the suit of John Luckenbach against Meyer Lissner for rent of the first and second floors of the Luckenbach Building for use of the Johnson-for-Senator Club, found in favor of Mr. Lissner yesterday. The question on which the suit pivoted was whether the bill for the use of the rooms came within the period of the election law, and should have been presented within ten days after the election. Judge Wilbur instructed the jury that it did and that as Mr. Luckenbach had failed to do so present the bill, the club could not be compelled to pay it after that date.

Mr. Lissner, after the verdict was returned, tendered Mr. Luckenbach a check for \$200, covering the amount of the rent which should have been charged instead of approximately \$300.

Attorney O. A. W. Morton, counsel for Mr. Luckenbach, immediately exclaimed: "We spun the offer."

An appeal probably will be taken. This is the first time that the point raised has been decided by the courts. Judge Wilbur was unable to find a decision in any of the reports of other States bearing on it.

SUIT-CASE DISPLAY.

Collection Acquired by Pilferer to be Shown for Identification.

Suit cases of various sizes and descriptions will be on display this afternoon at Central Police Station from 3 till 4 o'clock for identification by possible owners. The values are a few of those alleged to have been stolen by Mrs. Bertha M. Moulter of No. 518 Crocker street during the past months. Mrs. Moulter was tried before Judge Richardson yesterday afternoon for petty larceny. She pleaded guilty and will be sentenced at 3 o'clock this afternoon.

FOR SHOPLIFTING.

Ninety days in jail is the penalty Josephine Emptage, No. 448 Concord street, must pay for shoplifting. She pleaded guilty yesterday afternoon in the Women's Court before Police Judge Richardson to a charge of shoplifting, following her arrest Monday by Nick Harris operative in the Fifth-street Stags.

WANT SCHOOLS CLOSED EARLY.

Chamber of Commerce Says Pupils are Needed to Help in Fields.

As a result of action by the directors of the Chamber of Commerce, yesterday, the Board of Education will be asked to close the schools earlier than was intended. According to the chamber, there is imperative need of aid, such as school children can give, in the fields and orchards of the Southland.

It is reported that similar action has been taken in various parts of the country where there are early crops. A special committee of directors, consisting of Jonathan S. Mitchell, D. F. McGarry and Edward Lyman, will present the petition to the Board of Education.

NEUTRALITY TRIAL WILL BEGIN TODAY.

CHARGE RECRUITING FOR WAR AGAINST MEXICO.

Six are Defendants in Action Involving Long List of Allegations, Including Purchase of Munitions—Convict Witness is Temporary Free Agent.

The long-delayed neutrality case against Baltimore Aviles and others will be begun before United States District Judge Edward S. Farrington of Carson City this morning, in the department of Judge Trippett.

The defendants, in addition to Mr. Aviles, are Gerónimo Sandoval, Charley Guzman, Francisco Ayon, W. K. Bowker and Harry Chandler. Gen. B. J. Viljoen was one of the original defendants, but he died recently.

The indictment charges, in a general way, a conspiracy to violate the neutrality laws and specifically alleges that on or about December 1, 1914, the defendants hired certain persons to go to Lower California to enlist in a war against the republic of Mexico.

It is alleged further that on December 10, 1914, Mr. Aviles hired Manuel Brasel and J. N. Fernandez to go from San Diego to El Centro to procure a place for the storage of arms and ammunition, which were to be taken later to Lower California; that on December 15, 1914, Messrs. Aviles, Viljoen and Chandler arranged for the purchase of arms and ammunition, which were that service; that on December 21, 1914, Gen. Viljoen paid Mr. Aviles \$1000 to be used in the payment of the men and arms and ammunition. On December 23, 1914, it is alleged that Mr. Aviles purchased an automobile with a part of the money; that on December 25, 1914, Mr. Sandoval purchased guns and ammunition at No. 418 South Spring street and took them by automobile to the residence of Mr. Aviles in San Diego.

It is further charged that later on Mr. Bowker gave Mr. Brasel \$100 in cash and an order on an El Centro meat market for \$20, for the use of the "army." It is also claimed that on December 10, 1914, Mr. Aviles hired Pedro Martinez at San Diego to go to Mexico to enlist as a soldier, and when he was to be paid \$50 cents a day.

It is announced that the government will have about thirty witnesses. One of the witnesses, Frank Nunes, a convict in the Arizona State penitentiary at Florence, was brought here on a writ of habeas corpus by Deputy Warden Truman Nunes is serving an indeterminate sentence of from two to five years, and, unlike other prisoners who are brought here in the custody of a prison officer for the purpose of testifying in a case, he was allowed to go at this time on parole, in charge of nobody. Officer Truman stated he was told by the warden not to put Nunes behind the bars, and, as the man was not in the custody of United States Marshal Walton, he created an innovation by coming and going as he pleased. In spite of the fact that he is a convict and supposed to be behind the bars when not in the courtroom.

At the hearing Messrs. Aviles, Sandoval and Ayon will be represented by Dudley W. Robinson; Charley Guzman by Thomas C. Gould, and Messrs. Bowker and Chandler by Oscar Lawler and W. J. Hunsaker. The District Attorney's office will be represented by Assistant United States District Attorney O'Connor and Moody.

FILES SLANDER SUIT.

Ingleswood Widow who Engaged Services of a Widow for his Children Brings Legal Action Against Neighbors for Alleged Remarks.

Ingleswood is considerably stirred up over a slander suit filed by Samuel P. Williams against Mrs. Louise Estren and her husband, August Estren and her husband, August Estren and Zula S. The fostering care of a woman being necessary, Mr. Williams engaged the services of Mrs. Anna Fennigan, a widow. Mrs. Fennigan is said to be a comely woman, and her presence in the house evidently caused some gossip. At least, it induced Mrs. Estren to file the suit. The character of Mrs. Fennigan and the uprightness of Mr. Williams. This was April 11, last. Previously, on August 10, 1914, Mrs. Estren charged with having practically used the same words.

Mr. Williams says the statements are false and malicious and asks \$5000 actual and \$1000 exemplary damages from Mrs. Estren. Mr. Williams says Mrs. Estren in the suit because he is her husband. The Estrens are owners of extensive property in the neighborhood. The suit was filed through Attorneys Gates and Randall.

WOMAN'S TONGUE LOSES HER SUIT.

LAWYER ASKS ONE QUESTION, AND FLOODGATES OPEN.

Even Judge Nonplussed by Torrent of Words that Results When "Fair Plaintiff" Tries to Explain Why Installments on Property Got in Arrears.

"Stern Realty Company against Sheppard," called Judge Wellborn yesterday.

"Ready," responded Gurney Newlin, attorney for the corporation, and "ready," said Attorney Thompson, of Thompson and Creighton, counsel for Mrs. Amelia Sheppard. The suit was to foreclose a contract of sale. Mrs. Sheppard had bought property on monthly payments, paid several installments and fell in arrears.

Mrs. Sheppard was called to the stand, and there the case started and ended. Taking her cue from a preliminary question, she talked on and on. There was no stopping her. It was tantum ergo in the courtroom. At the end of an hour when there was no sign of slowing down, Judge Wellborn casually mentioned that for financial reasons, he thought Mrs. Sheppard should have a guardian.

"I don't want a guardian," was her reply. "I have always been a guardian myself."

There was no cross-examination and no other witnesses called. Attorney Newlin argued that Mrs. Sheppard had won her case for him, and her own attorneys were forced to admit the fact. So Judge Wellborn gave judgment against her and in favor of the Stern Realty Company.

AT THE CITY HALL.

RED TAPE IS CUT; MONEY AVAILABLE.

HOME GARDEN COMMITTEE WILL BE GIVEN FUNDS.

Cash Needed at Once for Purchase of Supplies and Flowing Vacant Lots—Expenditures will be Made Under Supervision of Mayor and Official Committee.

Acting Mayor Betkouski yesterday cut the red tape that tied up the \$5000 appropriation for the Home Garden Committee which was made available by the Council through the Mayor. The latter left yesterday for Sacramento.

Following conferences with representatives of the Home Garden Committee City Auditor Myers and Howard Robertson, Assistant City Attorney, the acting Mayor prepared a request to the Council to amend the ordinance appropriating the \$5000 to make the money available without Civil Service and other red tape. The amendment to the ordinance will be adopted under the emergency clause so that the money may be expended by the committee under the supervision of the Mayor immediately both for the purchase of supplies and for free plowing, also for the payment of its own employees without approval of the Civil Service.

The Council yesterday approved the report of the Finance Committee recommending that the suit of Weston vs. the city be settled for \$7500. The claim was made in connection with fees and patents.

Final ordinances were adopted yesterday for the improvement of Harvard boulevard from Leighton avenue to a line 300 feet southeast of Adams street from Mont Clair street to the west.

A few bottles of S. S. S. taken just at this season, will put your system in perfect condition, and enable you to withstand the hot summer season, with its dangerous ailments. S. S. S. is recognized as the standard blood purifier, and it has been on the market for more than fifty years. It is guaranteed purely vegetable, and contains nothing but the juices from roots and herbs gathered from the forests.

S. S. S. promptly cleanses the blood of all impurities, improves the appetite, gives renewed strength and energy, and a few bottles taken now will revitalize the entire body and put it in tip-top shape. It is sold by drug stores everywhere. You can obtain a valuable and interesting booklet by addressing Swift Specific Co., 74 Swift Laboratory, Atlanta, Ga.

city boundary line; improvement of Hope street from Twenty-third street to Adams street. Councilman Conwell yesterday presided as president of the Council, President Betkouski having assumed the duties of the Mayor.

One additional woman probation officer, who will serve without compensation, will be appointed, the Council making provision for the position yesterday.

ARE REPEATERS?

Three Boys are Arrested for Fourth Time on Burglary Charge. Three boys were arrested on charges of burglary yesterday by

Patrolman Condaff of the University Police Station. The boys are charged with having entered a hardware store at No. 4421 Vermont avenue and stolen a number of knives and other steel implements. They gave the names of Abner Craig, 18 years old; Herbert Kessler, 11 years old, and Warren Squires, 11. The three boys have been arrested on similar charges three times in the past. It is alleged.

All kinds of live stock can be bought and sold by reading the "Live Stock" columns in The Times "Liner" pages.

LIVE FOREVER
Says DR. WILEY

In a recent lecture, Dr. Harvey W. Wiley, the noted chemist and food expert, said: "If you mix whole wheat products with milk you can live forever."

What Dr. Wiley undoubtedly means by "Live forever" is the fact that whole wheat with milk contains the proper elements for sustaining life without the addition of other foods.

Krumbles is the whole of the wheat, thoroughly milled, and has a delicious flavor.

Don't Let Spring Debility Get You Firmly in Its Grasp

Purify Your Blood and Avoid "That Tired Feeling" So General Just Now.

Sluggish blood causes what is generally termed "Spring Fever," that affects so many people just at this season, and everything seems all wrong to those whose system is not in perfect condition.

If you become tired easily, if your appetite is gone, if you suffer from dizziness and a general "down and out" feeling seems to pervade your system, the cause is in your blood, and you will not feel right or enjoy perfect health until it has been cleansed of all impurities.

A few bottles of S. S. S. taken just at this season, will put your system in perfect condition, and enable you to withstand the hot summer season, with its dangerous ailments. S. S.
